

Steven M. Ocampo

FULL STACK SOFTWARE DEVELOPER

 954.562.7316  stevenocampo@mail.usf.edu  www.linkedin.com/in/ocamposteven  StevielsMagic

SKILLS

- Javascript
- React
- Redux
- Node.js
- Express
- MongoDB
- HTML / CSS
- Git Version Control
- Patience / Positivity

ACTIVITIES

When I'm not programming, I'm leading my family's nonprofit efforts. We provide pro-bono legal counsel, financial literacy courses, & mental health counseling to the underserved.

AWARDS

Phi Beta Kappa - Honor Society
Medallion of Distinction - Excellence in Civic Engagement

PROJECTS

- Studdy Buddy is a flashcard tool that facilitates the learning of C.S. concepts. I built with a team of 3 peers using the MERN stack. It handles user authentication via the OAuth 2.0 protocol. I was responsible for the OAuth, RESTful API, and MongoDB database integration. (www.studdybuddy.club)

EXPERIENCE

LAMBDA SCHOOL (YC-S17)

JULY 2017 - PRESENT

Student - Teaching Assistant (TA)

- 6 month CS and Software Development Program.
- Completed all curriculum course work.
- 1,500 hours of hands on experience with client-side and server-side development, pair programming, and CS fundamentals.

My current role as a TA includes the following responsibilities:

- Lead a daily standup meeting for my group of 8 students.
- Review student pull requests & help debug their code.
- Conduct algorithm coding challenge and Q&A solution lectures.
- Mentor each student individually during our weekly 1 on 1 calls.
- Encourage students on their journey to become a developer.
